## ALARM IN COLOMBIA.

Government Prepared to Line the Isthmus with Troops.

PANAMA, Oct. 29.—Official cablegrams from Bogota announce that the government has all the troops necessary to send to the Isthmus in event of trouble there. Governor Obaldia has received orders to send the Pacific transports to Buena Ventura, where two battalions are now in readiness. The cruiser Carthagenia leaves Barranquilla on the Atlantic side next week with troops for Panama.

It seems that the government has become frightened by alleged exaggerated news spread in Bogota by those opposed to the canal project and wants to line the Isthmus with troops in sufficient numbers to at once put down any attempt at rebellion.

So far, known the attempted overthrow led by General Barrera is isolated and unimportant. Since Sunday last nothing has been heard of insurgents who are alleged to have come from Nicaragua. Dr. Pablo Arce, one of the most distinguished of the liberal leaders in the Republic, has cabled Foreign Minister Rios protesting against the revolutionary movement. Other prominent Liberals have made similar protest to Governor Obaldia.

## BIG STRIKE IS ORDERED

BRIDGE AND STRUCTURAL IRON WORKERS TO QUIT.

Ten Thousand Men Will Be Directly Affected and Over 100,000 Persons Rendered Idle.

NEW YORK, Oct. 29.—The threat of a national strike by the International Association of Bridge and Structural Iron Workers to force recognition of local No. 2 by the Iron League and Employers' Association culminated today at a meeting of the international and local committee of the association held in this city, a resolution being passed ordering a strike all over the country, to go into effect Saturday in all cities where members of the Iron League of the Building Trade Employers' Association have contracts. President Buchanan was in favor of exhausting all efforts to bring about a peaceable settlement, but the Parks element thought this too slow and carried the majority with them. Efforts are to be made to bring the new House of Representatives into New York into line. Notification will be sent to-morrow to all localities in which the members of the Iron League or the employers have contracts for iron work. The strike will affect the inside iron work. The cities which will be affected include New York, Boston, Philadelphia, Pittsburgh, Easton, Chicago, St. Louis, Cleveland and Cincinnati.

The international executive committee estimates that 10,000 iron workers will be directly affected. This would mean the throwing out of work of from 100,000 to 150,000 and possibly more workmen in other grades.

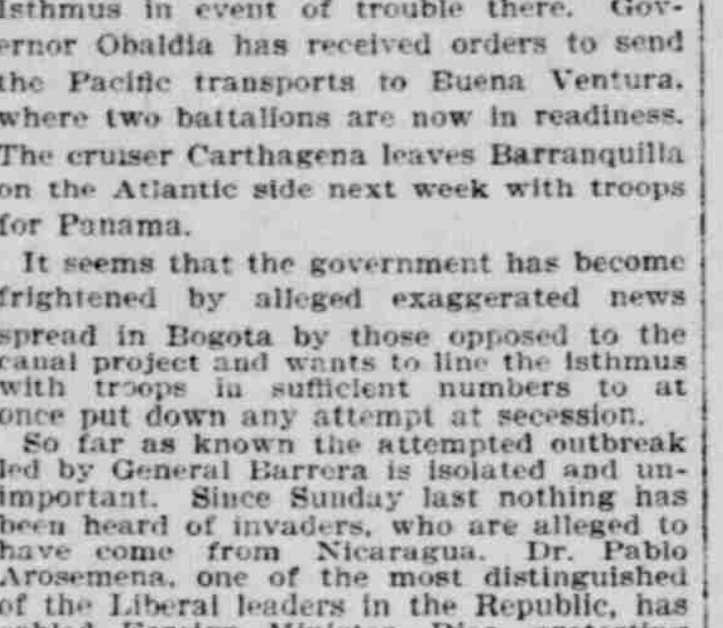

President Buchanan would not talk of the national strike today. All he would say was that he would do every effort to bring about an amicable settlement, we have won every other fight and I believe we will win this one.

## AFTER STORMY SESSION

NAME CHOSEN BY THE NATIONAL EMPLOYERS' CONFERENCE.

Organization Will Be Known as the "Citizens' Industrial Association of America."

DELEGATES NOT HARMONIOUS

SOME OF THE SPEAKERS HISSED DURING THE FIRST SESSION.

Majority of the Employers Present in Favor of Dealing Fairly with Labor Unions.

CHICAGO, Oct. 29.—Unable to decide upon a name for the organization, the conference for the purpose of forming a national federation of employers' associations, to cope with labor problems, which began here today, was compelled temporarily to adjourn, amid the uproar and hisses of the assembled delegates.

A number of the delegates who represent national trade organizations of the country insisted that the new body should have the words Citizens' Alliance or Alliance in its title, while those representing the Citizens' Alliance, composed of employers and employees, were firm in their desire for recognition. Each side gave its reasons for its position, the question being put to a vote several times, but all was confusion, and before a decision could be arrived at a motion to adjourn was made by the more conservative delegates and carried.

At this juncture S. T. Ballard, of Louisville, one of the delegates, mounted a chair and spoke on the matter of the alliance, and denounced the members of the Citizens' Association as "a bunch of scoundrels" and "a bunch of scoundrels." He was hissed, and the uproar continued until most of the delegates left the hall.

Some of the well-known manufacturers of the country were in favor of admitting the alliance and giving them recognition in the name of the organization, as they believed it would aid their cause. Among those who spoke in favor of the alliance were J. H. Boettcher, of Shelbyville, Ind., who said the alliance should not be carried out until the employers' association had been organized, and J. C. Chadwick, of Brooklyn, declared no injustice was intended to employers in the movement.

The speaker said to put down tumult and disorder and uphold the constitution, Phillip R. Toll, of Kansas City, president of the Citizens' Association, also spoke. The addresses of the delegates were conservative and showed the disposition of the manufacturers only to uphold what they believed to be their rights in the labor problem and to treat labor fairly.

The majority of the delegates are declared to be in favor of the provisions of the constitution and by-laws, which are said to be fair to the unionists. A large fund, it is said, to be raised by per capita assessment, will be used to extend the work of the organization, and representatives of State, national, city and international organizations, as well as specific crafts, were represented at today's gathering.

When the convention adjourned at night harmony had been restored and it was voted unanimously to adopt the name "Citizens' Industrial Association of America." The organization will include both employers and employees.

The objects of the association, as set forth in the constitution and by-laws which were adopted to-night, are:

First—To assist by all lawful and practical means the properly constituted authorities of the State and Nation in maintaining and defending the supremacy of the law and the rights of the citizen.

Second—To assist all the people of America in resisting encroachments on their constitutional rights.

Third—To promote and encourage harmonious relations between employers and their employees on a basis of equal justice to both.

Fourth—To assist local, state and national associations of manufacturers and employers in their efforts to establish and maintain industrial peace and to create and direct a public sentiment in opposition to all forms of violence, coercion and intimidation.

Fifth—To foster and encourage by legitimate means enterprise and freedom in management of industry.

Sixth—To establish a bureau of organization for the formation of associations favorable to the objects of this association and federating them with the association.

Seventh—To establish a bureau of education for the publication and distribution of literature tending to foster the objects of the association.

Eighth—To create and maintain a fund for such purposes in harmony with and promote the objects of this association.

## REFUSED TO TESTIFY.

Man Shot in New York Case Declined to Identify Assailant.

NEW YORK, Oct. 29.—The examination of Thomas Lenahan, said to be "Doc" Naylor, the "Pokey King of Philadelphia," who is charged with shooting Edward Carpenter, also known as "Jack," and Thomas Cleary, of Lynn, Mass., Lenahan's companion at the time of the shooting, who was arrested with Lenahan, was postponed to-day until to-morrow, pending the result of Carpenter's injuries. Carpenter, who was shot in the abdomen, breast and hand, may not recover. A determined effort was made by the police to get Carpenter to identify Lenahan as the man who had shot him. Lenahan and Cleary were taken to the hospital. When Carpenter was asked if Lenahan had shot him, he said: "I was murdered, but what is the use of murdering him?" and then fell back on the bed in a faint.

Later he said to the coroner: "There were 200 persons in the cafe at the time of the shooting. If they want to testify for me, why all right; if they won't testify, let the man who did the shooting go free."

## BROWN WAS POISONED

VERDICT OF THE CORONER'S JURY IN THE PITTSBURGH CASE.

Former Recorder Was the Victim of Drugs Administered by an Unknown Person.

PITTSBURGH, Pa., Oct. 29.—The verdict of the coroner's jury on the death of ex-City Recorder Joseph Owen Brown was reached this evening after fourteen sittings. The jury finds that Recorder Brown came to his death suddenly at his residence Sunday afternoon, March 15, 1903, from poison, administered by some unknown person or persons. The death of Recorder Brown occurred a few days after his resignation as city recorder at the close of a year's bitter factional fighting in local politics.

There were vague rumors of suicide at the time, but the death was generally attributed to collapse from overwork and mental stress. The suicide rumors, however, reached J. R. P. Brown, of Nebraska, a brother of the deceased, and on April 5 he had the body exhumed from its resting place in Dull Creek cemetery, near Tarentum, Pa., the boyhood home of the recorder, and a post-mortem examination held. After the post-mortem the body was sent to Philadelphia for a chemical analysis. On June 29 the inquest proper was held and has not yet been concluded. It was held in the city of Philadelphia, where Brown had been since. In all there were thirteen sessions, not counting the viewing of the body. For the past month nothing has been heard, owing to the illness of Col. T. C. Campbell, of Louisville, who had been retained by J. R. P. Brown, the dead man's brother, to look after his interests in the case.

Ex-Recorder Brown left an estate of considerable value, in which his wife, from whom he had been separated, several nephews and some distant relatives were beneficiaries by his will. The verdict of the coroner's jury leaves the case about where it has been all along, beyond officially determining that he did not commit suicide or die from natural causes.

J. R. P. Brown, who has conducted the investigation, proposes to remain here and investigate further.

Cornerstone of the New Courthouse Laid by the Masonic Order with Appropriate Exercises.

ADDRESS BY GOVERNOR DURBIN

AND A WELCOMING SPEECH BY JUDGE P. O. COLLIER.

Masonic Grand Lodge Officers Escorting by Raper Commendery, K. T., of This City.

Staff Correspondence of the Journal.

GREENCASTLE, Ind., Oct. 29.—The cornerstone of Putnam county's new courthouse was laid this afternoon with imposing ceremonies and under the most auspicious circumstances. The Masonic ritual was followed under the direction of Grand Master William E. English and other officers of the Masonic Grand Lodge of Indiana, and the occasion was graced by the presence of Indiana's chief executive, Governor William T. Durbin, who was the orator of the day.

The weather could not have been more propitious, a perfect October day contributing largely to the success of the programme and to the size of the crowd, which was unquestionably the largest Greenscaste has ever entertained. To get an accurate estimate of the size of the crowd it would perhaps be safe to consult the last census report, take the official population of Putnam county and add a few thousands to include the several hundred students of De Pauw University and the large number of visitors from Indianapolis, Danville, Terre Haute, Brazil, Bloomington and other cities of the Fifth and Second congressional districts, for practically every resident of the county was here. A conservative estimate would place the crowd at fully 20,000. The people came from all directions and in all manner of conveyances, carriages, buggies, autos and regular and special trains on all the railroads, and, as they came in holiday spirit and in holiday attire, nothing was wanting to make the affair all that could be desired.

GENEROUS HOSTS.

No effort had been spared to make the occasion as a memorable one in every respect, and as hosts the citizens of Greenscaste cordially welcomed the guests of glory. Business was practically suspended that all citizens might assist in welcoming the guests, and hospitality was unbounded. The pupils of the city schools and the students of De Pauw were given a half holiday that they might join in the demonstration. A pleasing and interesting programme had been arranged, and the arrangements for handling the crowd were admirable. In spite of the fact that the streets in the vicinity of the public square became so congested that the parade was held up and the opening of the ceremonies delayed some minutes, the crowd was well behaved, responsible for this, and all things considered, it is surprising that the delay was not longer.

The opening of the programme dated from the arrival of the special train from Indianapolis, which arrived at 10 o'clock. The officers of the Masonic Grand Lodge, Governor Durbin, a band and several military companies of the Indiana National Guard, Knights Templars, as an escort for the Grand Master, Captain General W. J. McConomy, commander of the Indiana National Guard, and other prominent officers of the Grand Lodge, were on hand to meet the guests. The officers of the Grand Lodge, F. and A. ## IF H. S. NEW WANTS IT

HE CAN HAVE THE REPUBLICAN COMMITTEE SECRETARISHIP.

That Is, Providing Perry S. Heath Retires, as Is Rumored to Be His Intention Before Long.

PRESIDENT WISHES HANNA

TO REMAIN AT THE HEAD OF THE NATIONAL COMMITTEE.

He May, However, Yield to Wishes of His Family and Cease Active Political Work on Account of Health.

Special to the Indianapolis Journal.

WASHINGTON, Oct. 29.—President Roosevelt is anxious for Senator Hanna to continue at the head of the Republican national committee. While Senator Lodge and W. Murray Crane, of Massachusetts, have been under consideration as possible successors, the offering of their names in this connection is based entirely on the supposition that Senator Hanna, on account of his health, will not continue as chairman of the committee. This information comes from a member of the administration. The same authority lets it be known that the administration has by no means abandoned the effort that has been made to induce Mr. Hanna to remain in the place he filled so admirably in the campaigns of 1896 and 1900. Senator Hanna enjoys the excitement of battle, and he will have more of it if his health permits. "While at home this summer the senator had an attack of illness that discouraged him and there is a possibility that he may yield to the wishes of his family and let some other man take up the reins of management."

The statement made in these dispatches yesterday that the question of the selection of a chairman and secretary might be considered at the meeting of the national committee in December was based upon the possibility that Mr. Hanna would retire then, and that Mr. Heath would at the same time resign.

Much interest was manifested in a dispatch from Indianapolis, published here this afternoon, stating that Jerry Matthews, secretary to Senator Fairbanks, had, as a friend of Mr. Heath, announced that the latter had no intention of resigning. The dispatch added that Mr. Heath will not stand for re-election. This confirms much of the gossip that has been prevalent here for some time concerning Mr. Heath and the secretarieship.

A member of the Cabinet was asked today as to the prospects of Captain Harry S. New succeeding Mr. Heath. He said: "If Mr. New expresses a wish for the place it will be given him."

C. B. Terry, of Indiana, who was dismissed from the Postoffice Department, will doubtless be given a hearing, as in the case of Louis Kemper, former chief of the registry division. The hearings granted in each of these cases is due primarily to the fact that the officers in the post office are in the fact that they are free to answer charges made against him in the department, however, that the evidence against Terry, Kemper and Louis was gone over with great care and that the prospect of Fourth Assistant Bristow reversing his recommendation is remote.

Civil-service examinations will be held in Indianapolis on Nov. 27 to create a list of eligibles for appointment as school teachers in the Philippines. The list commission some time ago called for 150 teachers, and less than half that number were placed on the roster as a result of this morning's examinations. The government is experiencing difficulty in inducing teachers to go to the Philippines, and there is a prospect that salaries may be increased.

Prof. Jenks, formerly of the Indiana University, is being considered for appointment to the prospective vacancy on the Philippine commission.

The Civil-service Commission has certified the following Indiana men for appointments as clerks in the railway mail service: Edward W. Scott, Borden; L. M. Kelley; Pearl Snyder, Alexandria; George W. Mainmon, Huntington; O. W. Keller, South Bend; Leroy A. Melch, Fort Wayne; Edward B. Macy, Brownstown; Nicholas Lenhart, Floyd Knob.

The American National Bank of Indianapolis has been approved as a reserve agent for the Russian Consul National Bank, of Rushville, Ind.

W. A. Foote has been appointed regular carrier and Fred E. McAllister substitute.

## MUKDEN IS REOCCUPIED

RUSSIAN TROOPS AGAIN IN POSSESSION OF THE CITY.

Chinese Authorities in Manchuria Are Alleged to Have Failed to Prevent Disturbances.

ST. PETERSBURG, Oct. 29.—An official dispatch from Mukden, Manchuria, says: "A detachment of Russian troops entered the town yesterday and reoccupied the garrisons. This action was in consequence of the weakness displayed by the Chinese authorities, who do not fulfill their promise, and owing to general ferment prevailing here."

"The rumors emanating from Japanese sources relative to the erection of Russian forts on the Yalu river, Korea, are declared to be exaggerated. It is explained that only a rampart has been built for the protection of the Russian settlements against the Manchurians."

"The reports of the entry of Japanese troops into Mukden, published here, are the anti-Russian demonstrations in Japan are now stated to be less frequent."

"The Russian troops, who have been recently entrenched themselves at Bodone, a town on the Sungchua river, Manchuria, have been ordered to leave the town and to return to their quarters at a station on the Manchurian railway near Bodone. They massacred the crew and then attacked the Russian railroad guards, killing forty-five. Further reinforcements have been ordered from Russia to Bodone to dislodge the Manchurians."

Diplomats here say that the Associated Press cable from St. Petersburg telling of Russian troops occupying Mukden indicates an agreement between Russia and Japan by which the latter has agreed to free Japan from the Japanese troops in Manchuria so far as Japan is concerned. Mr. Kagura Takahira, the Japanese minister said tonight that he had read the cablegram with deep interest, but was still without official confirmation.

The European diplomatic corps reports of a tripartite understanding between Russia, Germany and Japan for the management of the affairs in the far east, reaching international significance, but it is declared no official news has been received by them on the subject.

## GUARDED BY TROOPERS

MONEY TRANSFERRED FROM THE ST. LOUIS SUBTREASURY.

Fifteen Armed Cavalrymen Saw that Striking Drivers of Express Wagons Did Not Interfere.

ST. LOUIS, Oct. 29.—Capt. E. W. Evans and fifteen armed troopers of Company G, Eighth Cavalry, from Jefferson barracks, served as an escort to-day to a United States Express Company's money van in which a large shipment of silver coin, approximately \$250,000, was removed from the United States subtreasury in the custom house to the Union Station office of the express company.

Gen. B. G. Farrar, assistant United States treasurer, said that the troopers under Captain Evans were furnished the express company by the government as a precaution against any possible violence at the hands of the striking drivers and messengers.

It was stated that all managers of express companies doing a local business notified their agents in Washington, D. C., as soon as the strike was called on Wednesday that no government funds would be handled locally until the strike was settled. It is said that when this notification was imparted to treasury officials in Washington arrangements were at once made to furnish United States troops as escorts to wagons in which government money was being handled.

Most of the express companies were able to operate their usual number of wagons and there were no reports of violence to the new drivers reported.

## ARMENIAN ARRESTED.

Taken Into Custody at Boston on Request of Scotland Yard.

BOSTON, Oct. 29.—On the arrival of the steamer Ivernia from Liverpool at her dock today Vehtan Krikorian, an Armenian, was arrested at the request of Scotland Yard on a charge of being an accessory before the fact of the murder of Samuel Sagouni on Tuesday. Krikorian claimed that his object in coming to this country was to attend lectures at Harvard, but on being searched only \$5 was found in his possession. He will be arraigned before a United States commissioner to-morrow.

## PUERTO PLATA ATTACKED.

Government of Santo Domingo Endeavoring to Retake the City.

"APE HAYTIAN, Hayti, Oct. 29.—72 Dominican government troops, independent of the army, attacked Puerto Plata, the port on the north coast of the island, which is in the hands of the insurgents.

General Navarro, the revolutionary governor of Monte Cristo, at the head of a strong force of troops, has joined General Morales, commander-in-chief of the forces of the Dominican revolution, and the reported intention of moving the combined forces on the capital, San Domingo.

## THE PARADE.

The Indianapolis guests were met at the train by a reception committee headed by Mayor John H. James, with an escort composed of a band and several lodges of Masons, in full regalia, and unarmored mandarin uniforms. The Knights Templars, Governor and the Grand Lodge officers were taken in carriages and the line moved to the public square to the hall of Temple Lodge, F. and A. M., where Grand Master English formally opened the Grand Lodge as a preliminary to the dedicatory ceremonies. Then the line moved again to the hall of the principal street of the city. The Grand Army post headed the procession, then followed the Knights Templars and Masons and distinguished guests. There were six bands in the line and it was estimated that at least 1,500 men participated in the demonstration. Marshals H. S. Renick, D. L. Anderson, A. J. Hamrick, W. V. Vest, Jerome M. King and W. H. H. Cullen had charge of the parade, which marched north around the square, east on Washington street to Locust, south to Hamilton, west to Indiana and north to the cornerstone, which is on the northeast corner of the square.

The square, which is necessarily in a badly torn-up condition due to the process of building, had been cleared of debris and cordoned off as possible. The business blocks surrounding the square, the huge derelict, and the tripod that suspended the coronation of granite were elaborately decorated, the national colors predominating. The foundation had been laid by the Masons and Knights Templars. The speakers' stand was the prominent feature of the coronation, while the north end of the platform was reserved for the prominent guests, county and city officials, choir and band. The crowd occupied every foot of available space in the square surrounding the platform and overflowed into the adjacent streets.

Immediately upon the arrival of the Grand Lodge officers James L. Randol called the assembly to order and introduced Mayor John H. James as the chairman. He followed by Grand Master William E. English to lay the cornerstone. The Masonic ritual, solemn and impressive in all its details, followed. Then Grand Master D. Stanley first offering the invocation, then Grand Secretary C. W. Frather read the list of materials to be deposited in the cornerstone, which included a copy of the constitution.
